

AA

### ***Simple Sorting***

*Note: therapist takes 5 trays out of organizer, dumps items on table, leaving behind one office supply item in each tray as a cue for sorting.*

Put the office supplies back into the correct tray by matching the item in tray.

BB

### ***Simple Sequencing***

*Note: Therapist places number labels on each tray in organizer in sequence leaving behind a few blank trays. The person fills in the blank spaces with the correct label.*

*Alternative: This can be done with letter labels.*

Put the number labels back on the correct tray so they are in sequence.
